SUPPLEMENT TO REPORT #

25X1

THIS IS UNEVALUATED INFORMATION

25X1

1. Northwest of Miskolc (4806N 2047E), between there and the village of Sajobabony, there is a powder factory.

25X1

it consists of many large buildings, that it manufactures and dries powder, and that the production is stored in the plant area. File item #1 illustrates the relative position of this plant with the railroad, highway, and power line running northwest from Miskolc.

2.

25X1

The dump lies west of the highway that connects Hejocsa (just southwest of Miskolc) and Maly, and about midway between them. There is no rail connection with the dump, which is located deep in the woods, and access to it is over a road part macadam and part gravel.

bunkers both above and below ground the dump was a distribution point for both Air Defense and AAA units.

vary from the smallest to the largest shells. Incidentally, the dump was used by the Germans during World War II. (See on file item #2)

3. At Lillafured (4805N 2037E), west and slightly south of Miskolc, is an underground air defense center that is charged with the safety of the Miskolc area. File item #3 gives the relative geographic position of this center, and file item #4 shows a more detailed layout of the center itself.

25X1

- a. Point #1, hotel resort
b. #2, civilian radio station with eight antenna towers
c. #3, four-floor building; troop barracks
d. #4, military garage and motor pool

- e. #5, first entrance to underground installation
- f. #6, second entrance (this part of the installation houses communications, equipment, and personnel)
- g. #7, third entrance.

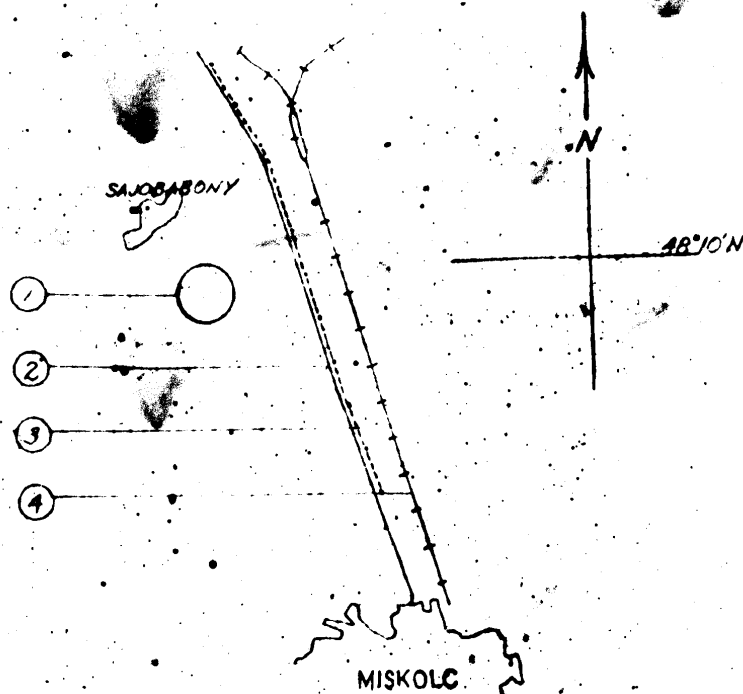

4. [redacted] north of Miskolc, [redacted] 25X1
 two stops beyond Borsod (4818N 2045E), [redacted] a new POL dump under construction in a farm area known as Budoskutpuszta. [redacted] 25X1
 a number of large, round, unpainted tanks being installed, some above ground and some sunk into it. [redacted] these were 25X1
 for oil and gasoline, and that the installation was operated by Soviets.
6. [redacted] the Klementina railroad station in the Mezokovesd (4748N 2034E) area, [redacted] some 500 meters south [redacted] an airfield was under construction. [redacted] the foundations of two barracks, various workers' barracks, and a runway about three kilometers from the railroad tracks that was unfinished and had a large pile of sand over it. [redacted] there were cement underground hangars alongside the runway which, when completed, would house Soviet jet fighters. [redacted] 25X1
 construction of the field was under the supervision of Soviet military personnel.
